#### Association Community and La Ligue de l'Enseignement

Association Community organized a mixed event, both in situ and online, to conclude the W.E. project and showcase the artistic residencies. The event was broadcast on Instagram, attracting 31 online participants, while 17 attended in person, totalling 40 attendees (with some participating in both formats). During the event, Association Community presented the project's objectives, target groups reached, and activities conducted. Artworks such as pictures and a graffiti poster were displayed, and a rap song and audio interview from an artistic residency were shared. Two local politicians attended in person. Although the mayor of Arques planned to come, he could not attend. In a few weeks, an inauguration event will take place to unveil a graffiti piece under a bridge in Arques, authorized by the mayor. This event, occurring after the W.E. project timeframe, will introduce the project to a wider audience and present Ways of Europe.

#### Faktor Terminál

Faktor Terminál Association held an info session about the projects Words and Ways of Europe in the form of an online presentation for individuals interested in our work. Participants were all from all kinds of backgrounds, from school students to business and nonprofit professionals, aging from 16 to 60 years. The workshop took place from 18:30 to 19:15. Faktor introduced the ideas behind the Words of Europe project, talked about its aims and themes, presented what happened during their workshops in the past few years, as well as discussed why it is important to involve our target group, children and young adults from marginalized backgrounds, living in correctional institutions and special children's homes, in such projects and in the discussion about their shared future in Europe. Faktor Terminál also talked briefly about the new perspectives the Ways of Europe project will bring about. Participants were interested in the themes, some of which were rather new to them and asked some questions about our experiences.
